

GATSBY WHITEPAPER 1.0

ELON'S BIGGEST DOG
THE FUTURE OF THE DOG COIN

DISCLAIMER

GATSBY, including but not limited to the overall project, the token, website, smart contracts, and any apps ("GATSBY") as presented in this conceptual paper is not a licensed, unlicensed, or exempted financial or payment service of any kind and in any jurisdiction. Any terminology used in this Whitepaper, on the Website, or within the app is intended only as a basic reference without any effective or legal meaning of the same terms in a regulated and/or financial environment. GATSBY is a fully decentralized and community-driven project and does not have owners, shareholders, promoters, marketers, managers, directors, or other figures or entities exerting any form of governance; the GATSBY smart contracts are open-source, security-audited, permanent, and non-modifiable in any way. The GATSBY token is a strictly utility token in any jurisdiction and is not and cannot be considered as a security or otherwise a regulated token of any kind. It is not in any way e-money and/or a fiat or asset-backed stablecoin, whether global or limited in scope. This Whitepaper taken by itself is not a contract or a contractual agreement of any kind. It is not an invitation, solicitation, or offer to invest in GATSBY or acquire or use its GATSBY tokens in any way and with any expectation of profit in any form. Any user of GATSBY declares to have received appropriate technical, administrative, regulatory, and legal advice before and after accessing and/or reading this Whitepaper, the website, and using any portion or element of GATSBY (including any GATSBY token therein) and accepts that there is an inherent high risk in accessing, acquiring, or using any kind of blockchain and/or crypto system, token, platform, software, interface, including Gatsby, and further acknowledges, with full disclaimer for any community member directly or indirectly involved with GATSBY, that there can be any kind of damage suffered, including total loss. This disclaimer should not be interpreted or construed as legal, financial, or tax advice, nor does it create any representation or warranty regarding the suitability, risks, or benefits of investing in GATSBY. Any investment in GATSBY is done solely at the user's own risk, and the user should conduct their own research and analysis before making any investment decisions.

FOREWORD

Elon's BIGGEST DOG

Welcome to the whitepaper for GATSBY, the memetoken dedicated to Elon Musk's biggest dog. On March 21, 2023, GATSBY was launched with the goal of creating a cryptocurrency that is not only unique and entertaining, but also accessible to the mainstream. We want to become the biggest memetoken in the space and have set ourselves a special mission: we want to do justice to Elon Musk's biggest dog, GATSBY.

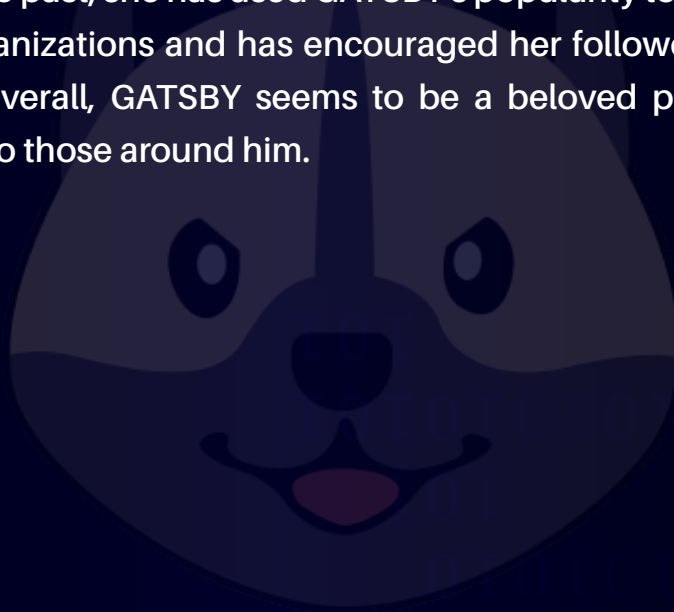

Our goal is to entertain and inspire the world with GATSBY. We believe that memetokens have the power to change the world, and GATSBY has the potential to become a major player in the crypto industry. In this whitepaper, we will explain how GATSBY works, which technologies are used, and what features our memetoken offers. We will also present a roadmap as well as plans for the future. We hope that this whitepaper will give you a clear idea of what makes this project unique and how it stands out from other cryptocurrencies.

ABOUT

GATSBY, Elon Musk's biggest dog, is a powerful Akita Inu, leading the Inu pack. GATSBY is a community-run decentralized meme token, and nobody can access the smart contract as it is renounced. On top of that, the keys to the liquidity pool are burned forever.

GATSBY is taken care of by Maye Musk, who is a well-known model and the mother of entrepreneur Elon Musk. Maye often posts pictures of GATSBY on her social media accounts, where he has gained quite a following. Maye also frequently takes GATSBY on trips, and has even brought him to fashion events and photo shoots. In the past, she has used GATSBY's popularity to raise awareness for animal rescue organizations and has encouraged her followers to adopt pets in need of homes. Overall, GATSBY seems to be a beloved pet companion who brings happiness to those around him.

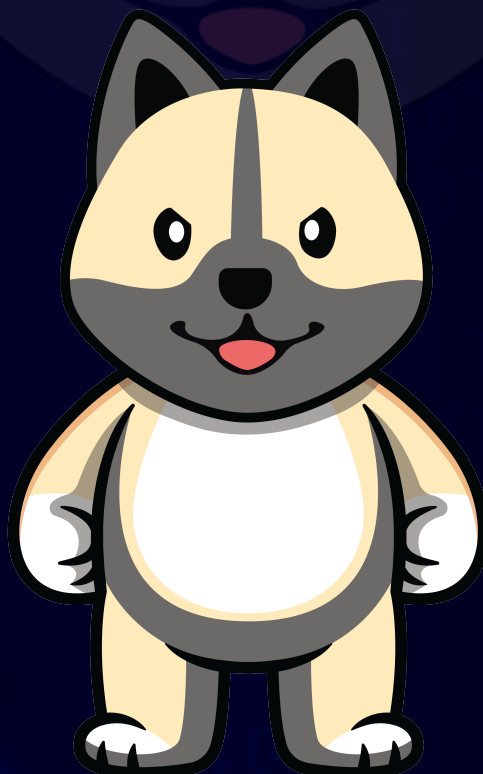

TRUST

Security is of the utmost priority for the GATSBY team. To ensure the safety of the project and its users, the GATSBY team will be taking extensive measures in the future. GATSBY is built on the secure and robust Ethereum network, which is known for its advanced security features. To ensure the impeccability of the code, multiple security audits will be conducted in the near future.

The smart contract will be reviewed by reputable third-party providers to ensure that it is safe and free from critical issues. Furthermore, the keys to the liquidity pool have been burned, meaning that no team member has control over the liquidity pool. This makes the project particularly secure and attractive to large investors.

The GATSBY team already consists of over 6 people and will continue to expand in the future. Investors can feel confident that their capital is in good hands and that the team is continuously working to ensure the project's security.

Overall, GATSBY is a secure project with a robust security infrastructure that protects the funds and investments of its users. Regular security audits and reviews ensure that the project is always up to date with the latest security technology.

TOKENOMICS

Token Name: Gatsby Inu

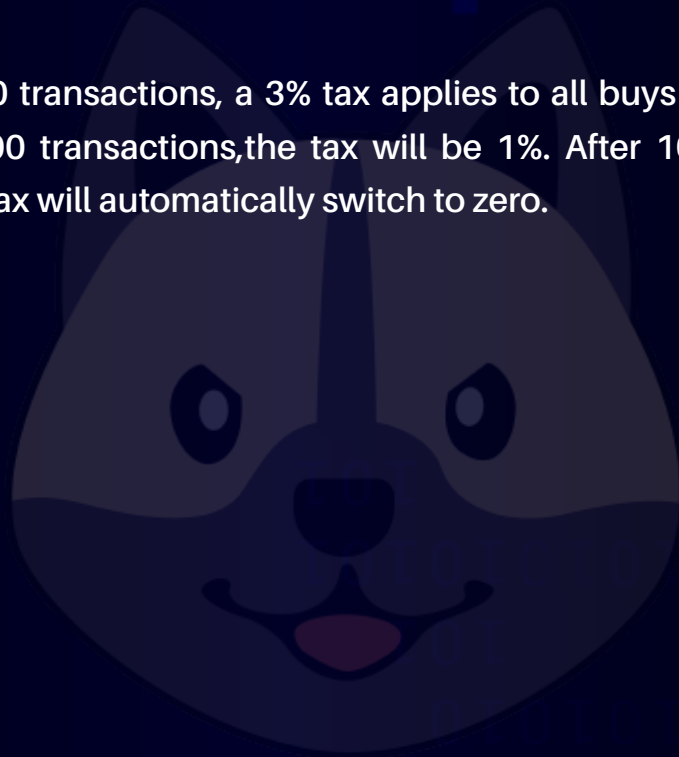

Token Symbol: \$GATSBY

Total Supply: 1 trillion

Blockchain: Ethereum

Contract Adress: 0x5D0EbC4Ec5ac18d30512fb6287886245061B3Dbd

For the first 30000 transactions, a 3% tax applies to all buys and sells. Between 30000 and 100000 transactions, the tax will be 1%. After 100000 transactions have passed, the tax will automatically switch to zero.
